Water conservation:

Compost Toilets and Cisterns, Are Compost toilets and cisterns the wave of the future? Find Out! This tape explores living examples and technical details. ASPI, 20 minutes, 1989.

\$25.00

ASPI is a non-profit tax-exempt environmental organization seeking to make science and technology responsive to the needs of low-income people in Central Appalachia. Our extensive appropriate technology and alternative energy literature and materials are also applicable across the U.S. and distant lands. Our environmental Resource Audits have been performed from coast to coast, and recent waste minimization work will take us to the International Waste Conference.

Water Tape Series,

An Eco-compendium of Water concerns: "Adopt-A-Stream," "Water Conservation," and "Water Sampling Analysis" all on one tape!

\$45.00

Water Sampling and Analysis,

A close up look at methods to train local citizens to conduct their own water analysis, with the West Virginia Mountain Stream Monitors, 1989, 20 minutes.

\$25.00.
