

I have seen a time when the human race was about to take a step
forward to a new, more peaceful world. The 20th century has seen
a better understanding of the world and a better way of living.

Second, we must not be afraid of change. For the world is changing
and we must change with it. The world is changing and we must
change with it. The world is changing and we must change with it.
The world is changing and we must change with it. The world is
changing and we must change with it. The world is changing and
we must change with it. The world is changing and we must change
with it. The world is changing and we must change with it.

Third, we must not be afraid of the future. The future is not
something that is going to happen to us. The future is something
that we can create. The future is something that we can create.
The future is something that we can create. The future is something
that we can create. The future is something that we can create.
The future is something that we can create. The future is something
that we can create. The future is something that we can create.
The future is something that we can create. The future is something
that we can create. The future is something that we can create.
