

CHURCH WORLD SERVICE

CWS is the relief and development arm of the Div. of Overseas Ministries of the National Council of Churches of Christ in the USA. The Office on Global Education (OGE) serves both as advocate for a global perspective and as consultant to a variety of individuals and groups in churches and the general public. Through participation in seminars, workshops, conferences, teacher training and other means, OGE shares information, exchanges ideas and collaborates with people who share concerns about hunger, poverty, limited natural resources and worldwide interdependence.
