

Your support allows AIDS Action to reach out with genuine care and concern...

- * To deliver over 1,240 holiday gift packages to children and adults effected by AIDS
- * To answer over 17,426 requests for information to our Hotline
- * To furnish 11,140 prepared meals to hundreds of men, women and children living with AIDS
- * To provide a full range of other services including help with rent, transportation, medical equipment, financial assistance, legal help and other support that is critical for someone living with AIDS, even those doing well on new drugs.

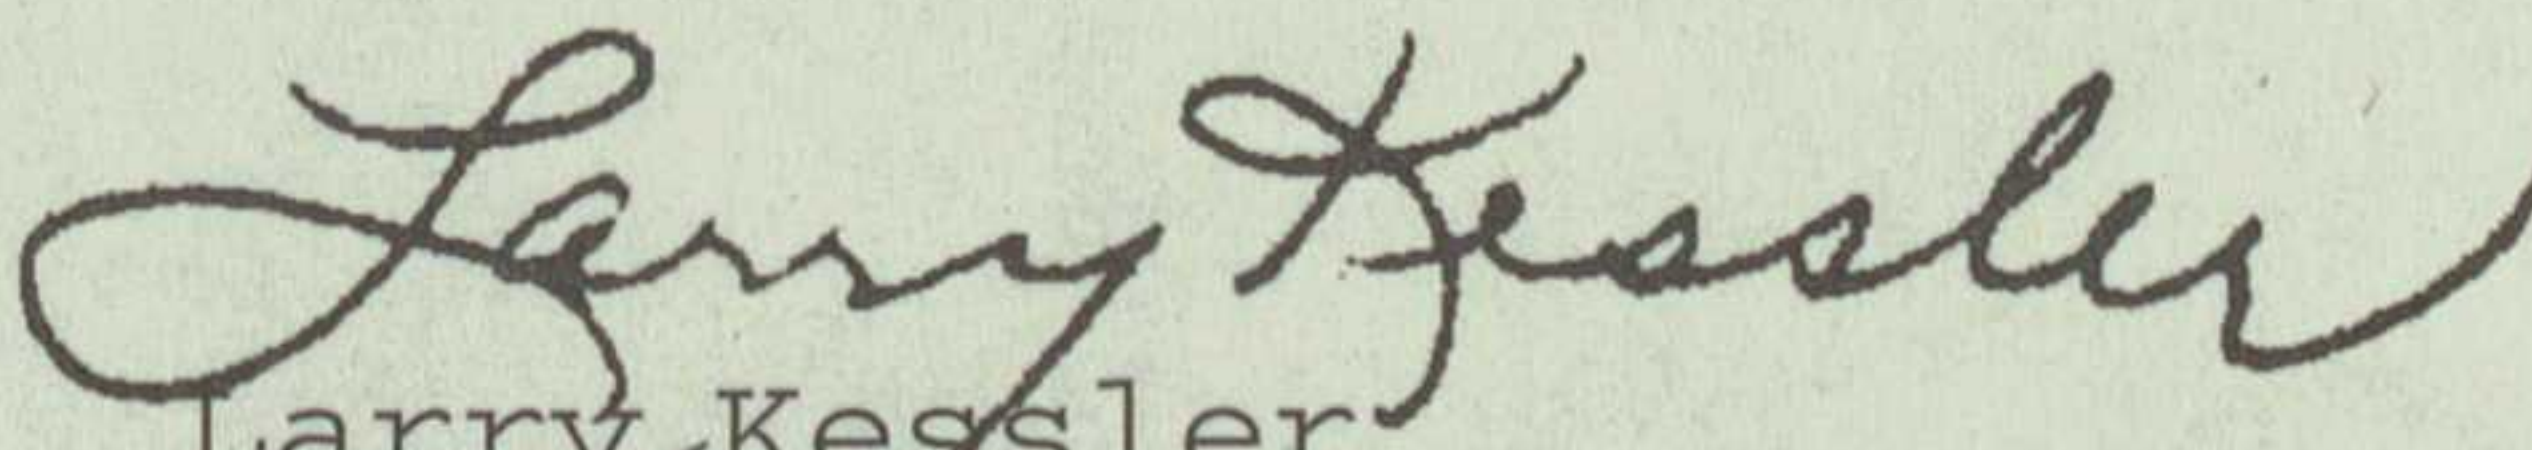

We also must step up our efforts to help people realize that HIV isn't just something that happens to someone else. Right now, prevention and education are the only vaccines we have against AIDS, but they only work if people realize they are at risk.

So that we can continue to provide to those who need us most, especially during this holiday season, please consider a gift of \$15, \$25, \$50 or more. We assure you, each and every dollar will be spent to help bring an end to this epidemic...

...and to bring peace and hope to those struggling to live with AIDS.

I want to thank you in advance for caring. There is no substitute for the kind of understanding your gift represents.

May peace and hope be with you this holiday season,

Larry Kessler
Executive Director

P.S. The art work on your 1997 Holiday address labels was donated by the artist. We hope you, too, will be as generous with a gift of your own at this special time of year.
