That the people of America may know how formidable are the dangers and how titanic is the struggle we face in the months ahead we are printing portions from a Congressional News Letter.

It is already proven that the mechanics for the destruction of the American Republic and Freedom, under God, for all mankind are both inherent and in operation in the whole United Nations program. The United Nations is already proven to be a World State with 51% of its population Communistic. It already outvotes the United States 4 to 1 in its Councils and by this voting is seeking to control our destinies and use our resources of wealth, manpower and armed forces to further its atheistic United Nations One World Government.

Congressman John Wood says, "While mothers fervently pray for peace and thousands of our American boys are freezing, fighting, dying in Korea under the atheistic flag of the United Nations, the UN and so-called statesmen and diplomats waste days, weeks, and months in meaningless double-talk, and the Administration prepares for all-out war and sets the stage for a European debacle that will make the Korean 'police action' look insignificant by comparison, dooming the lives of thousands of other American youths.

"The American people are sickened by the senseless slaughter in Korea, shocked by the ever-increasing exposures of corruption in government and outraged by the double-talk, half-truths and deceitful propaganda given to them by the Administration and by international agents of press and radio.

"The American people are beginning to suspect that our most dangerous enemies are not in Korea, China or Russia, but here in the United States and that the propaganda threats of Communism and atomic warfare are being used to frighten us into surrendering our national sovereignty to a Socialistic World Government, in which we would be hopelessly outnumbered and outvoted.

"In the minds of many Americans there is a growing conviction that the real architects of our foreign and domestic policies are the
