Above we reproduce the Title Page of a most remarkable book...It is now out of print. Fortunate is the one who finds a copy in old book stores. [I treasure the one copy I possess].

In 1916 Mr. Osborn in the preface..."What is the greatest danger which threatens the American republic to-day? I would certainly reply: The gradual dying out among our people of those hereditary traits through which the principles of our religious, political and social foundations were laid down and their insidious replacement by traits of less noble character."

Anybody out there today listening? America is in deep Financial, Religious, and Political trouble...Where can healing be found?
