A CRITICAL TIME. . . . A CRITICAL MESSAGE

"Change the world!" should be the rallying cry of every Christian. The early church was known for its world-changing gospel. When the gospel was preached, these first century Christians were rightly accused of "turning the world upside down" (Acts 17:6). Their preaching affected all of life (Acts 20:27). Today's church is again believing the world can be changed. Christians are no longer content to see the world transformed into a nightmare by those who deny Jesus Christ and His Word.

Christians must be obedient to the mandate God has given to extend His Kingdom to every sphere of life, to every corner of the globe (Gen. 1:26-28; Matt. 28:18-20). Communism, militant Islam, and secular humanism have had their day. The world can be changed through the preaching of the Gospel and the application of Scripture to every area of life. The time is now! Christians around the world are beginning to realize that Jesus is indeed Lord of heaven and earth.

American Vision: A History

American Vision began in 1979 to help Christians understand that America had a biblical foundation. In order to capture the early Christian history of our nation we produced the award-winning audio tape The American Vision: 360 Years Later. In 36 minutes the truth about 360 years of American history comes alive. Don Basham said of this dramatic tape: "This tape should be heard by every American. It presents our national heritage in the true light of almost forgotten Christian influences, striking a telling blow against the secularist voices which strive to bury the American dream."

We are not content to relive the past, however. The present and future America (and the world) are on our mind. Our primary ministry is to help Christians develop a comprehensive Biblical view of life -- a Biblical World View. For too long many Christians believed that the Bible addressed a very narrow slice of life -- Bible study, prayer, worship, evangelism, and heaven. While the Bible does speak to these vital areas, it also gives specific instructions on business, economics, law, medicine, journalism, art, education, the plight of the poor, the causes and solutions to war and terrorism, politics, the family, science, and every other conceivable area of life. ..
