SUPPORT YOUR LOCAL (and VOCAL) ANARCHISTS

Anarchy is reborn anew for every time and place. Lovers of freedom and justice will always re-emerge to claim their birthright. The comfortable style and glossy imagery of the present fools no one -- except those who choose to be misled. As long as The System and the power-mongers put the screws to us, your friendly local anarchist will come forth.

Such was the origin of the Anarchist Association Of The Americas and its "Emancipation" newspaper collective, a publishing and direct action group that re-invent anarchy for the mid-Atlantic region two years ago. We are a dozen persons, embracing a variety of political, social and personal viewpoints, but joined together to issue a monthly newsheet and bring back to public view the essential principles of anarchism.

Members have been active locally in the anti-nuclear and anti-draft movements and have worked in support of Native American rights and general progressive issues. We have also been active making connections with other anarchists across America and have begun to serve as an information and organizing point for the Washington area.

Our immediate future will be very demanding as the struggle for fundamental change makes haste. If you feel you would like to lend a hand (as writer, artist, street leafleteer, etc.) please contact us.
