

And for the next year we are going to aggressively promote a boycott of that company or companies.

This is the major battle. We must win it ... or we will lose the war.

That is why we simply must pick up our weary bones and ask God for strength. Why we must put forth that second effort. That is what it is going to take to get the job done.

Some people in the news media are already getting vicious.

The networks and their allies have begun firing their guns full force. They are calling us censors, bullies, economic terrorists and all the other buzz words they can think of.

So be it.

Our right →

We still have the right to spend our money where we desire ... and we will!

Over the past few months I have seen God guiding this ministry in a way which was more visible than at any time during the past 12 years. This is His battle. We are His soldiers. And I firmly believe that as long as we remain faithful to Him and humble in our work,

... He will reward our faithfulness.

During the past few months I have asked for your financial support to build a "Boycott Warchest" of \$400,000. You have responded in a great manner -- approximately \$250,000 in the "Boycott Warchest"; enough to begin the battle.

This money will help us recruit as many as three million of our fellow Christians and Americans to join the boycott.

I'm still hoping that we will be able to raise the other \$150,000 before June 30. Here's how A.F.A. will use those funds:

1. ---> To mail 1,000,000 "BOYCOTT PLEDGES" starting July 25.
2. ---> To mail another 1,000,000 "BOYCOTT PLEDGES" in August.
3. ---> To mail the third million "BOYCOTT PLEDGES" in September.
4. ---> To prepare and distribute spots promoting the boycott to 750 Christian radio stations and 75 Christian television stations.
5. ---> To prepare and distribute ads for denominational and church newspapers.
6. ---> To prepare and distribute bulletin inserts for 170,000 churches.
7. ---> To mail a deck of 100 "BOYCOTT PLEDGE" cards to 170,000 churches to help recruit 17,000,000 Christians to
