

OUR PURPOSE

Believing in the humanity of the unborn and the God given dignity of all human life, Advocates for Life strives to educate the public as to the tragedy of abortion and seeks to promote involvement in non-violent forms of direct action to stop the senseless destruction of human life.

OUR STRATEGY

While we seek to cooperate with all organizations that have as their goal the stopping of Abortion, Advocates for Life uses the following strategy to stop abortion now:

SIDEWALK COUNSELING

Sidewalk Counseling is love and compassion, not harassment. It is a last minute intervention with a woman who has an appointment to kill her baby.

Sidewalk Counseling is a ministry that offers women the truth about abortion and through cooperation with pregnancy help organizations provides real alternatives for women who need help with a crisis pregnancy. Sometimes women will not want to talk to you, yet you

must be willing to share with them the truth about abortion. Sometimes the truth hurts. A baby is about to be destroyed and you must love them enough to tell the truth.

Proverbs 24:11 states, "Rescue those be-
led away to death, hold back those be-
ing led to the slaughter." It is within
our power, with God's help, to save the
lives of many unborn babies and to help
women make the right choice for them
and the child they are carrying in their
womb. Someone must be there to help
by providing loving alternatives. We
cannot simply say no to their actions
while closing our hearts and lives to one
who is in desperate need. Please con-
sider what you can do. Sidewalk coun-
seling can be one of the most rewarding
prolife activities.

EDUCATION

Literature and audio tapes are always
on hand at no charge. Video tapes are
available on a loan basis along with the
equipment to play them.

A 24 hour Action Newslane is available
with both national (Joe Scheidler's own
"Action News" from Chicago) and local
news including upcoming direct-action
opportunitites, Call **257-3031**.

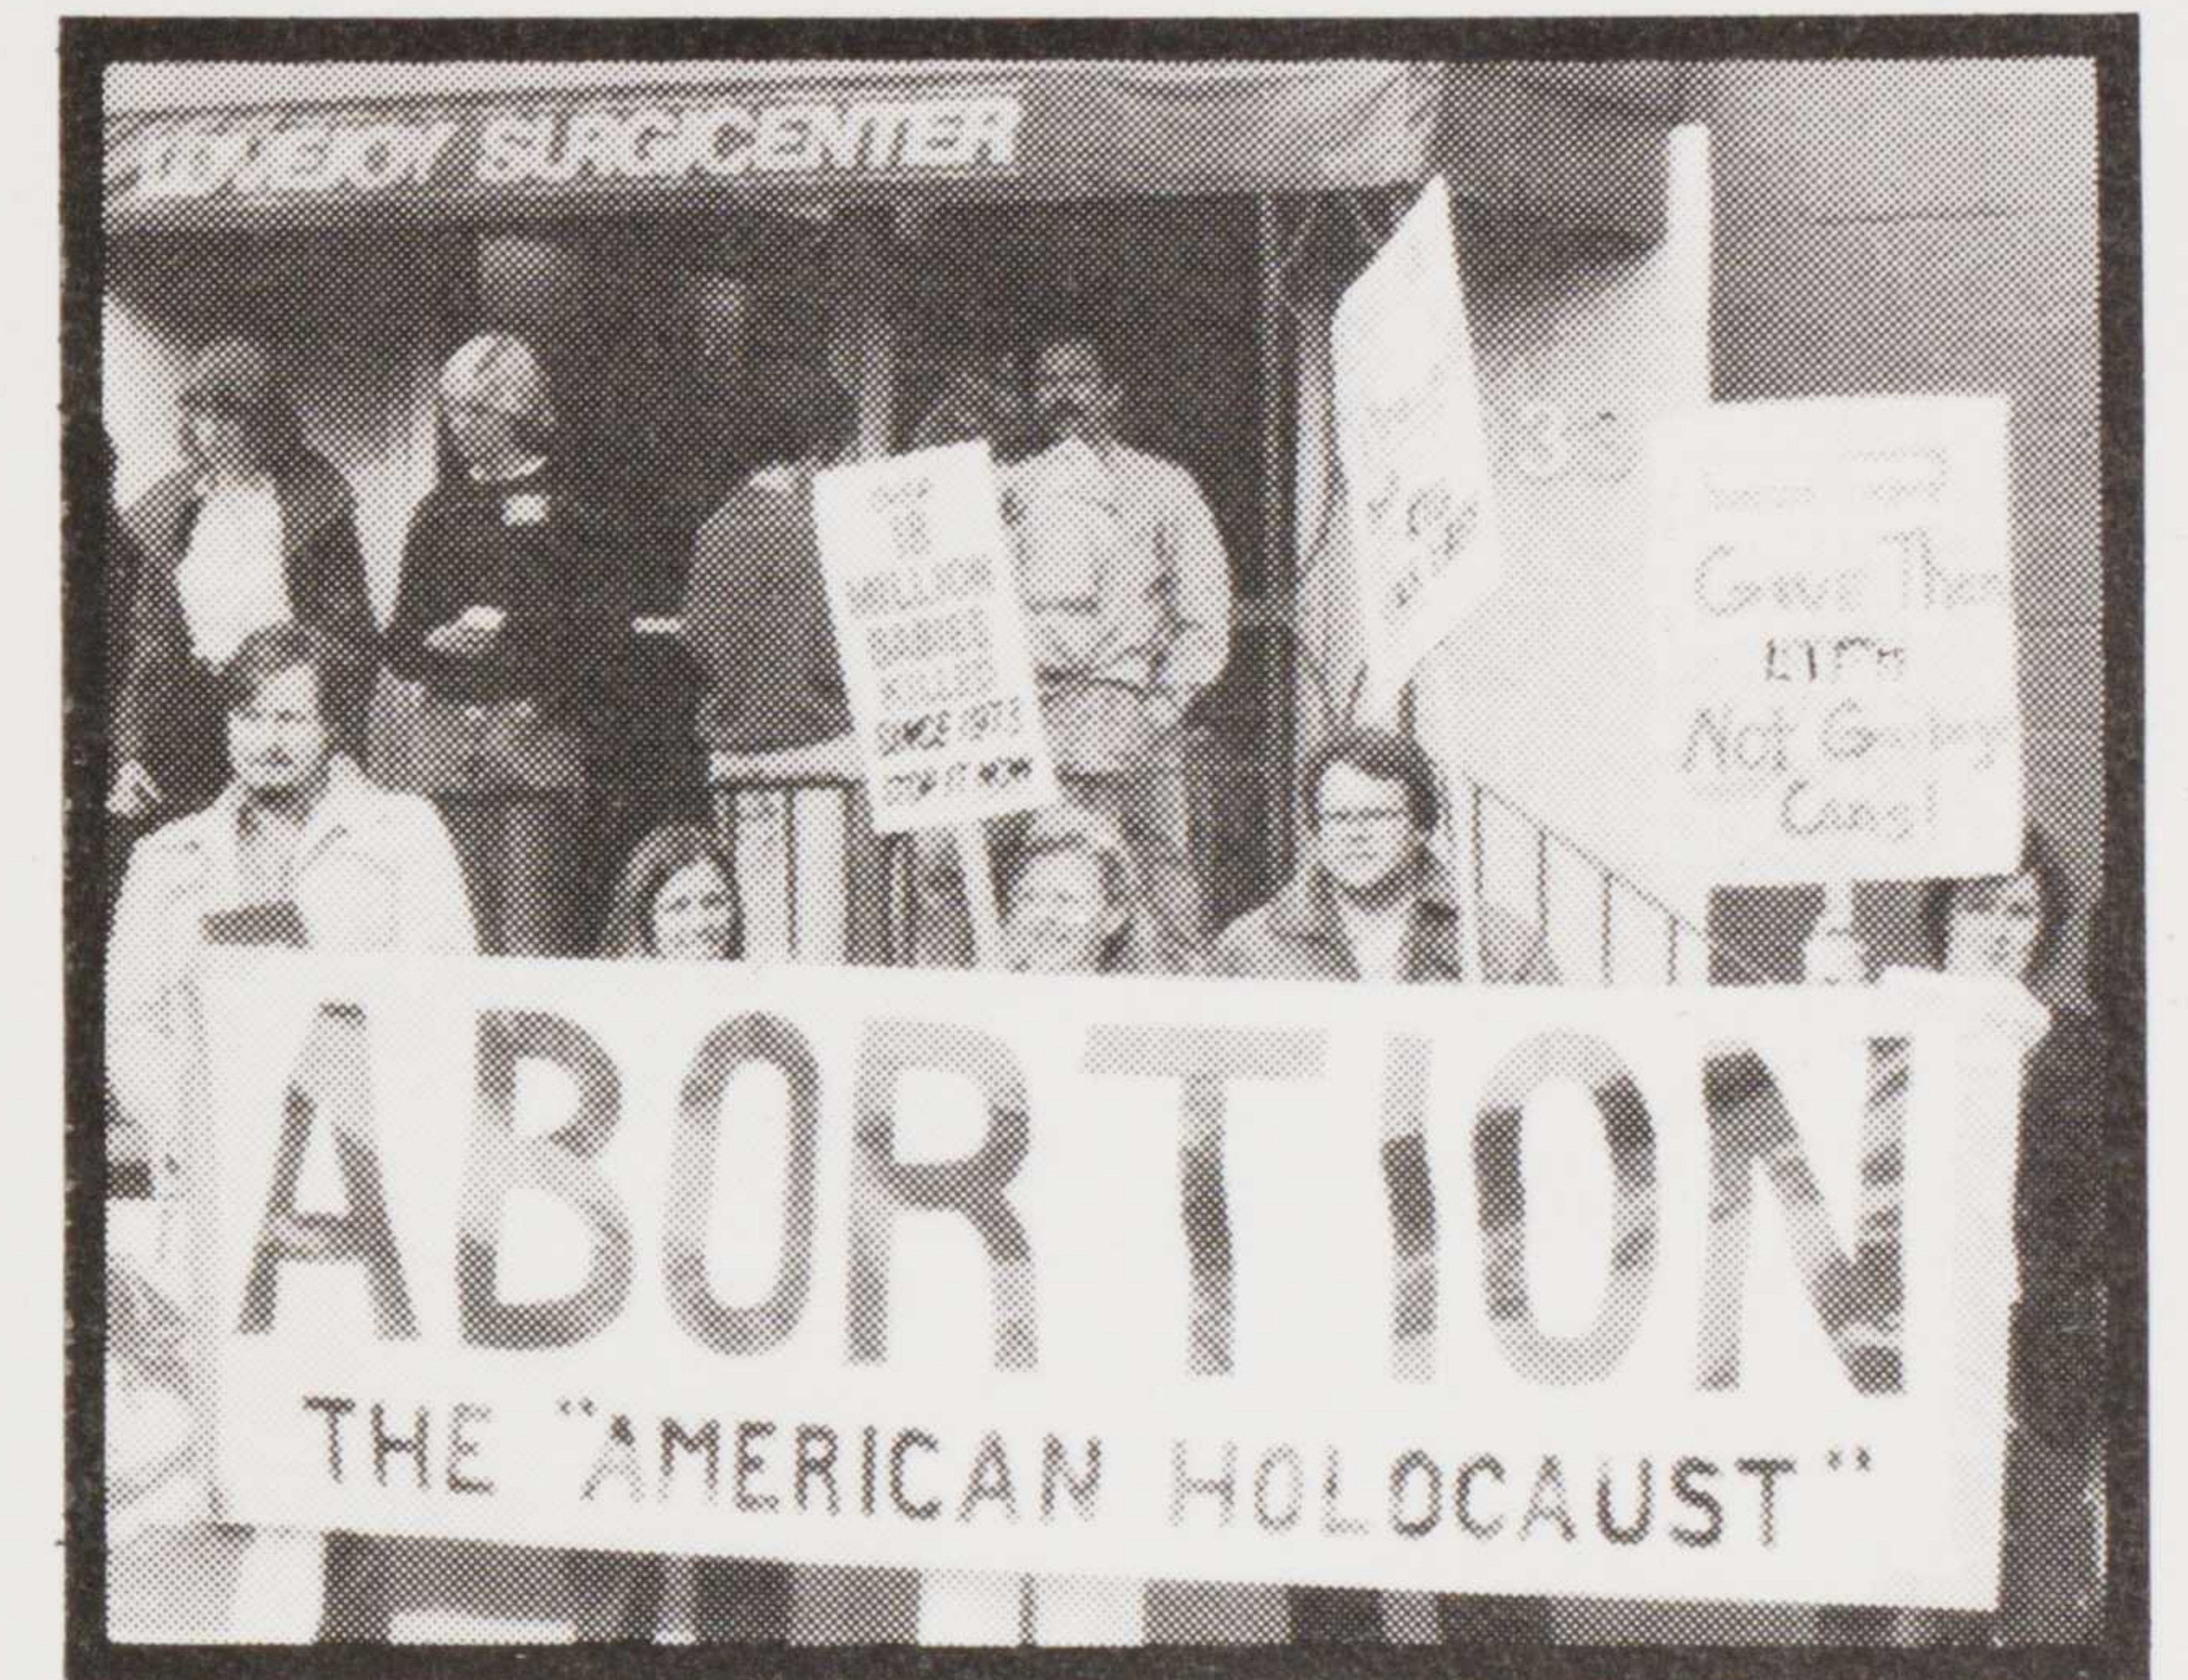

THE ADVOCATE, a free monthly pub-
lication of Advocates for Life, updates
its readers with information on coming
events along with reporting the activi-
ties of the past month.

The media arm of Advocates uses bill-
boards, radio and other forms of media
to convey the pro-life message.

Representatives are available to speak
to groups and help them get involved.

PRO-LIFE DEMONSTRATIONS

Pro-life demonstrations are a gathering
of individuals as a public testimony
against the atrocity of abortion. They
may take any number of forms from
pickets to rallies or even sit-ins. By
nature demonstrations are a form of
public education. Also, they serve as
a witness to the community of the fact
that the taking of innocent human life
is wrong and that there are those who
will not stand on the sidelines and pre-
tend that nothing is really happening.

Demonstrations raise the level of con-
sciousness as to the reality and scope
of the problem of abortion.

Media coverage of demonstrations help
the community to think about and deal
with some of the life issues that might
otherwise be overlooked or forgotten.

Demonstrations provide an outlet for
individuals who have the courage to
stand against what may seem to be the
current wave of attitudes concerning
a particular moral issue.

**ACTIVISM
CAN MAKE A DIFFERENCE**
