Composed, printed, and bound entirely
by voluntary labor.

Who's to blame?

In between jobs. That's the polite way to talk about the situation more and more people are finding themselves in these days.

To find someone who's out of a job and out of ideas for finding one, you don't have to look very far. Just go down to the unemployment insurance offices, the street corners or the temporary work agencies. Answer any want ad, whether it's for a check-out clerk or a chemical engineer, and there'll be plenty of other people waiting to be interviewed for the same position.

Who's responsible for putting so many people's lives on hold? Who's to blame for unemployment?
