

Defense. It is claimed by its proponents to be of great value militarily to the United States, but any schoolboy can see that by enriching foreign nations both economically and militarily, we are building them up as rich, ripe plums to be picked up by Russia! Making them indeed desirable acquisitions! And any fool can see that Russia is only holding off waiting for us to plant more and more materials of war over there for the Soviets to seize and use against us, especially nuclear weapons. And any fool would know that countries bordering on Russia would have no use for missiles or other nuclear or atomic long range modern weapons of war, and that just as soon as those are put there that they will be hurled against us! Also, we can't depend upon any allies then!

Indeed, we will stand alone for already the peoples of these foreign nations have said that they are willing to become captive nations invaded by Russia rather than to die in any more wars! So, by the stroke of a pen, all our "Mutual Security" will evaporate into thin air around the world! And furthermore, all of the billions of dollars we gave to these traitors for Harold Stassen's "Mutual Security" will be used in war against us - hurled back at us! What kind of jackasses we will be then - after bankrupting our U. S. nation for a mess of pottage! And even worse - for all our U. S. men that are abroad under NATO will be taken as
