

SLEEPING AMERICA AWAKE, AWAKE!!!

A GERMAN scientist has said, "It is now possible to depopulate the earth in twenty-four hours."

A rocket expert declares that Soviet Russia will be ruling the world in five years.

In his book, "No Wonder We are Losing," Judge Robert Morris, recently resigned counsel to the Senate Internal Security Subcommittee, declares, "Time is running out. The nation is still not awake to the lateness of the hour nor to the proximity of the peril. Our very civilization hangs in the balance."

With an incisive understanding of our mortal foe, and with the help of God—we can change the course of the swift-flowing tide. Let us, then, plunge into the struggle with all our resources."

Earth's Greatest Tragedy

Says Professor McDougal, of Harvard University, "As I watch the American nation speeding gaily and with optimism down the road to inevitable destruction, I seem to be contemplating the greatest tragedy in the history of mankind."
