Citizen Protest

TO: The Secretary of Agriculture

I protest the U.S. Forest Service's abuse and mismanagement of our National Forests, which result in overcutting, destruction of old-growth forests and fishing grounds, excessive clearcutting, and pollution of watersheds. It's outrageous that American citizens' tax dollars are being used to subsidize the destruction of our natural resources!

I demand that you take immediate steps to bring Forest Service practices into compliance with the National Forest Management Act of 1976, by restricting logging to environmentally suitable areas, by eliminating timber sales that lose money, and by managing our National Forests to preserve all their values, including recreation, clean water, wildlife habitat, scenic beauty, biological diversity, wilderness, and scientific values.
