

ACTION for NUCLEAR DISARMAMENT: CAPE COD

197 Farmersville Rd., RD 2, Sandwich, MA. 02563

We are a group open to all men and women who would like to work to halt the nuclear arms race. We are a single issue group that works to educate the public and bring about political change. Our actions include petitions, programs, rallies and legislative alerts. We need financial support for mailings, films and program expenses. We need people to write letters, participate in actions and on staff committees. Please act on your beliefs by involving yourself in some way with the peace movement.

We would like to continue these newsletters to you for free, but somebody has to pay the postage. Please send a contribution if you have not already done so.

We are an affiliate of W.A.N.D. - Women's Action for Nuclear Disarmament.

#####
