IF YOU'RE AN ABORTIONIST:

THIS
COULD BE
YOUR
PICTURE.

An abortionist kills eight week old babies, whose hearts are beating, twelve week old babies, whose bones have hardened so that a special instrument is used to snap the spine and crush the skull.

If you're an abortionist, your “dirty little secret” is about to be exposed.

AFLM is committed to use only non-violent/free speech methods to expose abortionists as baby-killers. Using home and workplace pickets and literature distributions, AFLM intends to expose every known abortionist in Portland.
