The Klan and the Government: Foes or Allies? *by Sam Marcy*

What is the Klan—just another right-wing group, or a secret terrorist organization? This book examines the special relationship with the state that has allowed the Klan to exist for over a century, despite its criminal history of lynchings, murders, and intimidation. How can the Klan be fought? The author reviews the lessons of several significant anti-Klan demonstrations. He shows how the Klan's resurgence in recent years is related to the deepening economic crisis—a crisis which is also generating a consciousness and militancy among Blacks and whites that can stop the Klan in its tracks.

80 pp., perfect bound, pocket-sized
\$2.95, ISBN: 0-89567-079-8.
