EDITORIAL:

Nationalism: the Correct Approach

Fellow White Americans:

This is the first editorial of the first issue of what is intended to be a monthly newsletter. As is only appropriate, let me begin this first editorial with a discussion of why yet another publication should be added to your list of literature you already possess.

Briefly, it is this: I've been around. I know what it takes to win, and frankly, 90% of the patriotic rightists in this fight, have neither the ability nor the will to win. Nor do they even know what it is they are fighting for or worse yet, who they should be fighting against!

Now there are some very good and gutsy whitemen who have been in the fight far longer than most, and they gave it all they had. Then there are some real rip-off artists still milking the patriotic movement of money and manpower. Most of you reading this, know who both these types are. Hence this newsletter.

So after 10 years as a hard-core street fighter with the Nazi Party, I do not intend to lead an organization composed of a brigade of book-worms. On the contrary, in the two years since I revived the America First Committee and created its gray-shirted defense corp, the LINDBERGH GUARD, we have been in the streets more often than the Nazis, the Klan, or any other group you can name. We have picketed Rev. Jerry (I love the Jews) Falwell when nobody would go near the Zionist traitor; we confronted 5,000 gun control fanatics while the NRA was officially absent from the scene at

Daley Plaza; and we even took on the Jews right inside a Chicago Synagogue so as to alert the former commander of the Green Berets, General Michael Healey, to their treason as he spoke in their defense!

So we have been quite active here in the Midwest. Now it is time to reach out to the rest of the country.

At a time when America needs men of courage, there are few to be found. And at a time when the enemy is strongest, we find our national spirit the weakest. At such a time as this, it is my hope to swell the ranks of the Gray shirts.

National Chairman Arthur J. Jones

For what is needed in my opinion is a new NATIONALIST approach to the enemy. And make no mistake about it, the enemy is ORGANIZED JEWRY in America. Thus a new look - a new symbol, and with these, a new movement with the greatest potential for victory.

THE GRAY SHIRT, Published monthly by the America First Committee 4345 S. Troy, Chicago, Ill. 60632 Subscription \$15 a year in the U.S.

Now what does the eagle and pentagon stand for? And why the gray shirt rather than a brown or khaki shirt? In the eagle we find symbolized the patriotic America First spirit of Col. Charles A. Lindbergh; the three white stars are to honor three great American patriots: General Douglas MacArthur; Com. George Lincoln Rockwell; and Senator Joseph McCarthy.

The pentagon stands for our belief in a strong defense policy aimed at making us the NO. 1 great power again, while the four stripes stand for the four Jewish-inspired wars of this century: WW I; WW II; Korea and Viet Nam.

As for the gray and navy blue uniform, it simply stands for national unity. For while the south fought for the preservation of white racial integrity thru segregation and slavery, the north fought simply for the preservation of the union. Thus in the gray and blue of the uniform of this new movement, we find expressed the political ideals of white racial survival and national unity.

Taken together, I truly believe we have in our new symbol, (one not easily copied by the Jews to place on their synagogues to milk pity from our people), and new uniform, the makings of a dynamic new movement which will attract at this late hour in history, new patriots to the holy cause of America First!
