

Page 2
Mr. Norman Garcia
December, 1985

I am not an alarmist. However, I am alarmed at the rate of moral decline and it is not slowing down. If we do not put the clamps on this trend beginning with the 1986-88 elections, I fear that it could be all over for those of us who desire a more decent and moral society in which to raise our families

Would you like to know more about our specific plans to bring about a moral reform and how you can participate? If so, please fill out the enclosed questionnaire. Upon receipt of your questionnaire, I will send additional information.

In 1984, we saw a glimpse of what Christians can do when they pull together at the same time and in the same direction. Norman, we must go on with the job God has given us. I look forward to hearing from you and I hope I can count on you.

Sincerely,

Tim LaHaye
