

THE BIBLE LEAGUE

Sharing God's Word Since 1938

Dear Partner:

Maybe it sounds too good to be true, but this time it really is true.

There is now a way for you to support The Bible League without spending an extra dime. In fact, supporting The Bible League can now actually save you money. Let me explain.

The Bible League has researched an organization called AmeriVision. They are a long distance billing company which offers service comparable to MCI, Sprint, and AT&T. But their rates are significantly lower. You can save up to 8% on your long distance telephone bills by switching to AmeriVision.

Besides that, when you use AmeriVision, they will send 10% of your monthly long distance bill to The Bible League! This 10% may not seem like much to you, but the more Bible League partners who sign up, the more The Bible League benefits. And the more spiritually hungry people around the world we can reach.

The enclosed information will give you more details about the AmeriVision program. Please read it and consider trying the program for 90 days. You can sign up right now by calling 1-800-493-2002. If you aren't satisfied after 90 days, AmeriVision will switch you back to the carrier of your choice at no charge.

The Bible League is excited about this new opportunity to help our partners save money, and yet continue to reach people around the world with God's Word. We hope you'll give it a try.

Your Partner in Sharing God's Word,

Rev. Dennis M. Mulder
President

P.S. Signing up with AmeriVision benefits everyone--you, us, and people who need God's Word!
