

Resource Booklets

CATALOG

Exodus has developed an extensive library of practical booklets on issues relating to homosexual recovery. Many of the booklets offer specialized information for parents, friends, spouses, pastors and counselors. These publications will help you find specific answers to questions on a wide variety of issues.

Each booklet is written out of the experience of Exodus ministry leaders, professional authors and counselors. Some are excerpts from outstanding Christian books, others are based on lectures and workshops presented at our annual training conference, while others have been written especially for this unique and helpful series.

Resource booklets are \$3.00 each, which includes postage and handling.
