

☐ **YES!**

I would like to contribute to FRC's advertising campaigns. Together, we can help protect America by promoting and defending public policies which restore the family to its role of shielding, training, disciplining and guiding. It's time we put families first and it's time we go on the offense to advance family, faith and freedom.

Sincerely,

Gary,

What is happening to America?

More Innocent Victims
In a single afternoon shooting spree in Washington, D.C., five people are shot at a pickup football game. Three of them are seriously hurt. One, a four-year-old girl, succumbs days later.

Raw Footage
On the same bloody battlefield in Washington, a Korean-American shop owner is gunned down in her dry-cleaning store. The horrifying scene is captured on videotape.

Sexual Sport
In California, suburban high school basketball players and their fans go wild. But the "sex" isn't "sport" until one of the most outrageous of young girls, one looks. The father of one of the boys defended his son's actions saying, "They will be boys."

Tourist Season
Miami is declared "off limits" by the German government. Grated of another tourist season. Only fifty years ago, U.S. troops brought peace and justice to a Germany ravaged by war, genocide and Nazi tyranny.

Freestyle Becomes Wildstyle
"Wildstyle" has become a metaphor for teenage boys in New York's South Bronx. Caught up large in 50 and around together young girls in public swimming pools, usually swimming and watching them.

Fire Away
In Tampa, Florida a screaming New York mobster is nearly burned to death by his own workers. This means gunned down has no more other than reached.

So Murphy, Where's Dad?
The Bigtime bank now checks to a record 30 percent for the one in seven very girls or for young high school dropouts. It's the figure for the whole country, and the picture is grim in many other states.

It wasn't that long ago we could feel safe in our homes, safe in our schools, in our neighborhoods and public pools. But for too long we've seen America change, to where lawlessness goes unpunished, where crime comes without remorse, where authority at all levels is mocked with impunity, where steering disrespect for life of any kind has shaken the nation to its core.

The strength of our nation has always sprung from the strength of our families. So what is happening to us? Just look at America's families...a 50% divorce rate...Unsupervised kids at home...Sexual peer pressure at school, unchecked violence on TV, in the movies...Harmful public policies that tax and penalize and even redefine the family.

We cannot return to the past. But we can restore the family to its role of shielding, training, disciplining and guiding. We can form public policies that protect the family as the social basis for a sound and safe republic...so that family faith and freedom might shape our culture.

To learn more about how you can restore a livable America, contact Family Research Council. We'll send you our latest booklet detailing "The Way to Put a Child Safety Cap on a Hostile Culture." We'll also include information on FRC's "Fatherhood is Important Business" campaign.

Want you join us today in Putting Families First?

I'd like to help. Please:

☐ Send me the "Way to Put a Child Safety Cap on a Hostile Culture" booklet.

☐ Put me on your mailing list.

☐ Send me more information on Family Research Council.

It's time we put families first.

Strong Families Should Be A Priority In Every House.

ENDANGERED SPECIES.

Conservation is a global issue. It's not just about saving the planet, it's about saving the future. The world's most endangered species are the families of the future. They are the families that will be responsible for the world we live in. They are the families that will be responsible for the world we live in. They are the families that will be responsible for the world we live in.
