Dear Aryan Knights:

I have been in Chicago, Illinois, the last two months, where the negroes rape and kill White women. While there, I discovered that recruiting posters for the U. S. Army were being posted in negro barbershops and poolrooms for negroes only, and with assistance, I was able to obtain one of them. I am going to try to make photostatic copies of it. It reads as follows:

AT TOP OF POSTER

YOUNG NEGRO MEN !

Are you the victim of race prejudice? Do white girls refuse to go home with you? As a United States soldier, you can travel abroad and be stationed in the homelands of our allies, where your pay will make you wealthy in the eyes of the people. Your money is worth five times as much as theirs ! Negro-Americans, the white girls of England and France and Italy and Germany are

waiting to see your healthy smiles !
JOIN THE UNITED STATES ARMY TODAY !

I had no idea that we had sunk so low so fast. White Southerners have no idea how far gone the rest of the country is. There is little doubt that the South today is a WHITE HEARTLAND in which the white women will soon have to be defended with guns against the invasion of negro and Asiatic United Nations forces. However, the present Administration intends to disarm white Southerners before we get a chance to defend ourselves. The widely publicized killings of a few negro agitators in the South have actually been committed by gangsters imported from New York and Chicago. The purpose is to declare Martial Law, using these instigated murders as a pretext, and make a house-to-house search of all Southern homes, taking all guns and ammunition which have been stored there for the defense of the white women.

This is how Eisenhower will repay the Southerners who elected him to the White House in 1952 ! The white people will be disarmed, while the Administration is arming the negro ROTC in negro colleges and high schools. DEFEND YOUR HOMES AND FAMILIES !

With all goodwill,
