

I was particularly incensed and horrified when I realized that these "Red" Jews were our representatives from the Pentagon who were the witnesses for the bill to raise the ceilings on the legal number of men in the armed forces of the U.S.A. and I saw and I heard these Soviet chiefs stand up to be identified by the Senate Committee whose Chairman was Senator Tydings, and each Jew who spoke could hardly pronounce his own name in English! Each one horrified me with their demands for millions of our boys! The thing that made me sick was that the entire Senate Armed Services Committee saw, and yet not one Senator challenged these Jews, or questioned their right to demand our men! I spoke about this to Senator Harry Byrd, but that pip squeak traitor never said a word, but voted whole-hog for this mass murder of Americans! I told him: "Harry, last night you spoke to the voters of Virginia, and you talked weasel words about economy and you promised to stop the spending and socialization program of the Truman administration, but today you are voting for it and for worse! When you voted for mass murder!" He would not answer me, but walked away! I had protested this bill by filing my papers against it, but the Chairman, Tydings, refused to allow any opposition!

These are the sort of pip-squeakweasels we have in Congress. What protection have you got with that sort of a politician? Get them out. And the rest of them are outright traitors! Arrest those kind of men! I slapped every one of those Soviet Jew generals and admirals in the face with my written charges that they are traitors! Soon after that a man-hunt was on for me!

I saw "U.N." Soviet-Zionist-Jews in uniforms of high ranking U.S.A. generals and admirals! Get these "Red" rats out of positions of power over our armed forces! These are the commissars who are directing this war from the Pentagon!

Another thing I forgot to tell you is that you know we beat the draft of veterans bill; that is, we beat the part of the Draft Bill that would have drafted the veterans! That I fought by appearing against it in the Senate Armed Services Committee on June 5, 1950.

Expect a draft of veterans for "United Nations" war in Korea! And other traps! Another draft bill or an amended draft bill is threatening! It's in the offing now to take all the veterans, and it may come up soon, too. On July 21st Senator Tydings announced that some important war bills are coming!

These Jews are the most stubborn devils! If you beat them once, they come right back again at you with the same bills all the time, and they cause wars to sink you in your own blood if they don't get all they ask for at once too!

It's really a terror! Yet the Congress allows it and says not one word! Indeed, the Congress participates in it!

President Truman knew that the Soviets were next in line to preside over the Security Council of the United Nations.

Are you people going to take this situation so complacently that you are satisfied that your boys be treated like steers to be sent to the slaughter house when the proper time arrives? That, in a nutshell, is what this war means! Placed at the "disposal" of United Nations "Red" Jews! Our men in public life will not dare to tell the truth about this great betrayal or give the facts behind this treason because they will get what Secretary Forrestal got! Wake up America!
