

CRIMINAL lawsuit on all eight (8) counts. This suit was against industry, but, in the same year, those who sold these "poisonous and deleterious" fluorides for drinking water and those who were responsible for act of fluoridation went free of legal prosecution. At this time the head of the Federal Security Agency was being taken over by promoters of fluoridation.

If you wish a Summary of the hearings of this lawsuit won by FDA on presence of fluorine added to beverage please send something to cover the costs involved (plus self-addressed, stamped envelope).

It is unbelievable that the FDA allowed fluoridation to get past 1945 or that the FDA has been kept under control by fluoridation promoters. The FDA now claims that they have nothing to do with fluoridation!!!! The EPA claims that type of fluorides used is responsibility of users!!!!

The article by our U.S. Government in Journal of American Water Works has long provided the water companies and the public of companies that supply various fluoride products. There were over 200 companies involved in selling in 1970. A partial list of companies that the FDA should have brought criminal action against are:

Agrico Chemical Co., Division of Continental Oil Co.
Allied Chemical Corp., Industrial Chemicals Division
Arch Chemical Co., Division of Atlantic Richfield Co.
J.T. Baker Chemical Co.
Chemtech Corp.
W.R. Grace, Agricultural Products Division
Harshaw Chemical Co., Division of International Minerals & Chemical Corp.
Electric Reduction Co. of Canada, Ltd.
Kerr-McGee Chemical Corp.
Olin Chemicals
Smith-Douglas Division of Borden Chemical, Borden Inc.
Stauffer Chemical Co., Fertilizer Division
Genessee Corp., (Cities Service), Inc., Chemicals Marketing Div.
Texas Gulf Sulfur Co., Inc.
U.S. Industrial Chemicals Co., Div. of National Distillers & Chemical Corp. - Conservation Chemical Co., of Illinois
USS Agri-Chemicals Division of U.S. Steel Corp.

Perhaps you could duplicate parts of this letter and send to your state and congressional legislators. You can obtain names of legislators by phoning or writing your city clerk.

Glad to be alive.

Sincerely,
