So declared Mikhail Gorbachev of Russia. earlier this year.

So---We will not quarrel with Gorby...He has a problem.

For the past 70 years no amount of Leninist social engineering, no amount of Stalinist mass deportations to Siberia, has been able to quench the dynamic desire for independence that burns within the heart and mind of the subjugated Nations of 'peoples' in the Soviet Empire.

The Moslem menace in this conglomerate Russian Empire bodes ill for the immediate future... All this has the potential of becoming a vast headache to Gorby..."A Russian home-made Lebanon" .

70 Years is a significant Bible Number...Is it Beginning of the End?

"Estonia, Latvia, Lithuania, Armenia, Georgia ... what next? Ukraine?"
