

Can President Reagan now count on you to take the crucial actions?

First, sign your name next to the bold letters H.R. 2106 and become a citizen co-sponsor in the struggle to end child pornography. Congressman Pashayan and President Reagan need your citizen co-sponsorship to show the liberals in Congress and the American Civil Liberties Union that he has you on his side.

For a pornographer's right to "free speech" does not give him the right to deface, ruin and sexually abuse children.

Second, mail your maximum contribution to the American Family Association.

The American Family Association is working hard in Washington to support President Reagan's crucial program to end child pornography in America.

This desperate crusade to end child pornography will cost the American Family Association \$27,650.00 over the next ten days.

And that's \$22,650.00 that the American Family Association does not have.

When you mail your citizen co-sponsorship of H.R. 2106 for Congressman Pashayan's and President Reagan's gallant attempt to end child pornography in America, you can also enclose a check of \$1,000, \$500, \$250 or \$100 to the American Family Association.

Or if you can only afford \$75, \$50, \$25, \$15 or \$10 please mail that today.

Every dollar is crucial.

For you and I must not let the pornographers win yet another battle.

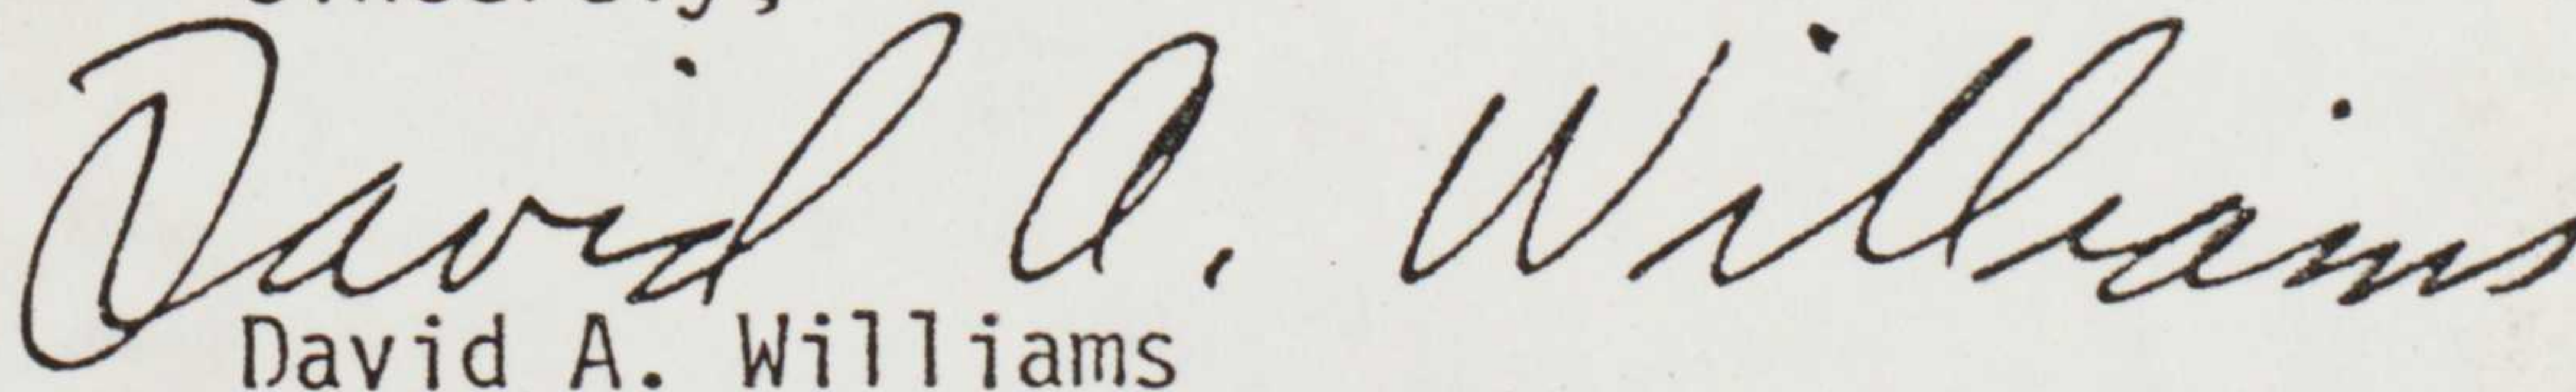

Children are being destroyed. Families are being ruined.

Now is the time to stand with our President. Now is the time to say child pornography is an insult to God.

Please help the American Family Association save thousands of American children from the grip of child pornographers.

God bless you for caring.

Sincerely,

David A. Williams

President

American Family Association

P.S. Your citizen co-sponsorship of H.R. 2106 can help end child pornography in America forever. Please sign your name next to H.R. 2106 and mail your maximum contribution to the American Family Association today.
