

1984

THE SECOND MOST IMPORTANT DAY IN YOUR LIFE!

Next to your salvation the most important day of your life will be election day 1984.

The future of America will be determined that day. Either this nation will continue its descent into a Sodom and Gomorrah type lifestyle or we will return to the traditional values upon which it was founded.

This note was sounded by some of the best known Christian leaders at their historic first meeting in Washington, D.C., when key pastors from every major city in America met for a briefing at the White House and later at a nearby hotel.

Christian leaders representing 45 million Americans believe we have reached the watershed of history and YOU could make the difference.
