

Program for equality

We demand the immediate resignations or impeachment of the anti-people Supreme Court (in)justices Renquist, White, Kennedy, O'Connor and Scalia.

We demand that the corporations and wealthy individuals return the \$250 billion a year they stole through tax cuts. We demand the military budget be cut by \$100 billion per year—a fully appropriate response to the Soviet arms reduction. This money would pay for the following program:

1. Full economic rights: a right to a decent job at liveable wages, with trade union protection and affirmative action programs to ensure equality in hiring and promotion. Equal pay for equal or comparable work by law. Integrated, affordable housing for every person and family living in the U.S.
2. Full and free health care: quality health care from "the cradle to the grave", legal and safe abortions on request. Funding for research and treatment of drug addiction, AIDS, cancer and other deadly diseases.
3. Free education: from day-care through university quality, integrated, non-racist, non-sexist, bi-lingual education should be guaranteed.
4. Outlaw anti-women, racist and anti-Semitic acts and violence. Equal political representation on all governmental levels and bodies.
5. Fully funded sports, recreational and multi-cultural programs in schools and communities. Affirmative action quotas to ensure full participation of women, African Americans, Latinos, Asian Americans, American Indians in all sectors of society.

Socialism, USA

Under capitalism, where profits control people, we can win limited gains. But only under socialism, where people's needs are the controlling force, can a firm foundation be laid for all to enjoy full economic, political and social equality.
