Dear Member of the American Family Association:

If you remember the national horror, and panic that surrounded the Polio Epidemic of the 50's, you will want to sign my national petition to help stop AIDS from terrorizing our nation's health!

For AIDS (Acquired Immune Deficiency Syndrome) is the "Polio" of the 80's . . . the "Gay Plague".

Since AIDS is transmitted primarily by perverse homosexuals, your name on my national petition TO QUARANTINE ALL HOMOSEXUAL ESTABLISHMENTS is crucial to your family's health and security.

With this vital petition, we will demand that all homosexual bars, bathhouses, and shops be CLOSED . . . BOARDED UP FOR GOOD.

And that homosexuals be required to answer a bloodbank questionnaire to determine if their blood is "safe" to use in transfusions.

For if you want your family's health and security protected, those AIDS carrying homosexuals must be quarantined immediately.

I hope to deliver 350,000 signed petitions to Dr. C. Everett Koop, the Surgeon General of the United States Public Health Service, within the next ten days.

Then Dr. Koop will know that you and all moral Americans want POSITIVE, IMMEDIATE ACTION TAKEN AGAINST THE GAY PLAGUE!

So please, sign your vital national petition and send it to me today. Only with your prompt action will we be able to stop perverse, infected homosexuals in their sick tracks!

And now let me briefly explain to you exactly why AIDS is such a threat to you and your family's health.

You may not realize it but AIDS is not just one disease. For AIDS is a syndrome that triggers hundreds of life threatening diseases.

AIDS removes the body's natural defenses against disease . . . including cancer . . . leaving your body vulnerable to the simplest of infections.

For with AIDS even minor infections become deadly killers.

And although AIDS is carried primarily by immoral homosexuals, AIDS can be transmitted to healthy moral Americans like you and me.
