

CONSIDER THE UNITED STATES PACIFIST PARTY

This leaflet is an invitation for you to become acquainted with the program of the United States Pacifist Party (USPP). The USPP is a recently formed third party based on the belief that military institutions violate the deepest religious and philosophic values: the principles of love and truth; through the nuclear arms race threaten the existence of the human species; and are the key worldwide factor preventing humanitarian economic and social development and progress. A main purpose of the Party is to build a society that provides political freedom, social equality, and economic sufficiency for everyone, without the use of military violence. Elements of the USPP's platform are:

- Complete nuclear and conventional disarmament, with or without verification;
- Preparation for the contingency of invasion through training for nonviolent resistance in the tradition of Gandhi and Martin Luther King;
- Massive economic aid programs to abolish poverty worldwide;
- Democratic world government.
