

Wouldn't it be grand if we could raise funds from people all across America to help the people of Eastern Europe with good creationist literature so they would really understand the foundation teaching of all Christianity? Please pray with me that we will have the funds necessary to do this. It is so important for them to learn the truth of Creation and that evolution is only a myth.

Also, from the CSA News, a publication of the Creation Science Association for Mid-America, a note for real thanksgiving.

Remember Dr. Charles Thaxton? He wrote the book The Mystery of Creation. We made it available to our partners several years ago.

Dr. Thaxton, a biochemist, and his wife Carole, recently visited Kansas City and spoke to about 100 creationists who heard him present a report from Eastern Europe.

"It was an exciting evening as they (Dr. Thaxton and his wife) told of their visit to 23 Eastern European Universities," the report said. "Communist educators gave them standing ovations and bouquets of roses, as they presented the scientific evidence for creation...and the Gospel."

The Thaxtons plan to move to Czechoslovakia to work with college and university students across Eastern Europe, CSA News reported.

Friends, we have new opportunities opening to us every day. I hope we will not fail to go through these open doors.

Pray that God will help us raise the funds necessary to do something in a very positive way in these ministries to these liberated people whose minds have been chained by atheism/evolution for all these many years.

Also, pray that in the very near future we will be able to present the truth about Creation in our schools right here in our beloved America.

We trust you will make a real good contribution to this ministry this month. Certainly we need your help and count on you to help us and God bless you as you do.

Sincerely,

Bill
