YOU NEED TO KNOW THE *TRUTH* ABOUT THE INTERNAL REVENUE SERVICE.

"I first ran afoul of the Internal Revenue Service in 1971, when I provided certain testimony to the U.S. Senate Judiciary Committee concerning now Chief U.S. Supreme Court Justice William H. Rhenquist; the IRS violently opposed the nomination and his confirmation. I was threatened by the IRS, and the threats were made good over the years.

"I soon learned that lawyers were incapable of assisting me with the Rhenquist problem, and so, as means of self-protection, I took it upon myself to investigate this entity known by the term "Internal Revenue Service."

"The Freedom of Information Act (FOIA) provided the legal access to the innermost secrets of the IRS; over the past 22 years, I have filed literally thousands of FOIA requests on behalf of clients and myself. This investigation has taught me many strange and incredible things about the "IRS." Knowing these things has enabled me to testify as an expert in U.S. District Court. Listed below are some of the highlights of my FOIA investigations and discoveries:

a) The "Internal Revenue Service" is a *term* adopted by several entities: 1) a sub-function of the Bureau of Alcohol, Tobacco and Firearms (BATF); 2) a sub-function of the U.S. Customs Service; 3) numerous other entities, depending on whether the term is in capital or lower case letters. *There is no such thing as THE* ONE IRS. *There is more than one "IRS,"* and my research has taught me how to determine which "IRS" a person is dealing with when written communications are received, and how to respond effectively.

b) The U.S. Attorney is authorized only to criminally prosecute BATF related cases;

c) The authority of the "Internal Revenue Service" is "outside the continental limits of the United States."

d) Both examination and criminal investigative authority is limited only to citizens living abroad and to non-resident aliens.

e) All "income taxes" are relevant to the Virgin Islands; a particular 3-digit code on a person's Individual Master File (IMF) indicates legally that all 1040 and 1120 filers are, by filing, legally designating themselves as citizens or residents of the Virgin Islands;

f) The term "Commissioner" means in the law "Director, the Bureau of Alcohol, Tobacco and Firearms.

g) Every District Director is an employee of the governor of the Virgin Islands;

h) The "IRS" is *not* an organization of the Department of the United States Treasury.

"I possess thousands of official government documents substantiating every shocking statement listed above, plus additional information pertaining to little known, but extremely important facts affecting nearly every Citizen of the United States.

"Most people are never legally assessed the billions the IRS claims they "owe," because the "IRS" has no authority to make such an assessment. Almost all assessments are voluntary self-assessments, and result in a "non-taxable" 1040 or 1120.

"The money that the average, unsuspecting 1040 or 1120 filer pays (after voluntarily self-assessing and swearing in writing under penalty of perjury that he/she is a Virgin Islands citizen or resident) is not credited to any amount "owed" - *because legally there is no amount owed to the "IRS" by the average person. There can be no amount truly owed without a legal assessment.*

Since the "IRS" has no authority to make such an assessment on the average citizen, where does the money from these 1040's and 1120's actually go? My research has provided me with the answer to that question." *(Wayne C. Bentson)*

Wayne C. Bentson is one of the nation's formost authorities on the "IRS," "IRS" computer codes and on the Freedom of Information and Privacy Acts. For over 21 years, he has been effectively assisting those accused of "crimes" by the IRS. He has testified in many court cases across the United States, and is considered an expert witness for the defense by the U.S. District Courts. The following are court cases in which he has testified as an Expert Witness in "IRS" and "IRS" computer codes.

		NAME	STATE
Criminal Cases; Expert Witness:	US vs	Stang	California
		Platsky	Michigan
		Hart	Indiana
		Kilpatrick	Colorado
		Meyer	Colorado
		Neff	Florida
		Byassee	New York
		Engstrom	Washington
		Broady	California
		Sasscer	Maryland
		Spulak	Nebraska
		Nordbrock	Arizona
		Bogard	Alaska
Assisted Did Not Testify:		Buford	Texas
		Laschon	Kentucky
		Meek	Oklahoma
Civil Cases; Expert Witness:		DeMent	Arizona
		Gilbert	Arizona
		Hefti	Illinois
		Bennett	Texas

Most of the cases handled with Wayne Bentson's material never go to court, since the IRS, when confronted with the evidence he provides substantiating all of the above facts, simply drops the charges. For every case in the above list, there may be as many as 10 or more which did not go to court because of Mr. Bentson's research. The key to a successful defense is to object timely and on point to all allegations which are untrue.

Mr. Bentson has also filed and won six personal Freedom of information Act cases, and has prepared and directed numerous addiotional FOIA lawsuits for others, all of which were won by his clients. Mr. Bentson's strategy in defense is to rely solely upon statutes as they are exactly written, and to hold both the client and the "IRS" to the exact letter of the law. Most of his information is rarely, if ever, known or used by defense attorneys. When properly utilized in a timely fashion, this information is a powerful and effective weapon for the defense.
