

## ● "Dummies" on the Payroll

J. Parnell Thomas was prosecuted for having several "dummies" on his payroll. The New Deal has 2,000,000 "dummies" on its bureaucratic payroll. Why not prosecute the fellows who placed them there?

## ● A Bill to Outlaw the Bible

Five Congressmen have introduced bills into the House recommending that the government provide heavy penalties for anyone sending literature through the United States mail which in any way attacks any religion, race, or creed.

These bills are in accord with the thinking of some people in our land who have gone overboard on the "Brotherhood of Man" idea.

These bills, if passed, would make it illegal and criminal to expose the heresies in other religions. This would be a direct violation of our Bill of Rights. If the bills are reported out of committee, every effort should be made to influence our Congressmen and Senators to vote against them.

NOTE: Such bills will appear "a-gain and a-gain and a-gain." They have a two-fold purpose, viz: (1) To outlaw the Bible in the United States, and (2) To prevent Communist traitors from being exposed. If a good American exposed a communist, the loyal American would be arrested for "race prejudice" and the Communist would remain free to plot the overthrow of our government. The Bible would be outlawed because it presents Christianity as the only TRUE religion and exposes as "fakes," all other religions. When Christ said to the Pharisees, "Ye are of your father the devil," (John 8:44) He was attacking a religion, a race, and a creed and under the proposed law, Christ would be arrested by the present day "Red" politicians who think they know more than God, for Christ WAS and IS GOD!

## ● Communist Conspirators Convicted

It is to the credit of the New York courts that the 11 communists were convicted and sentenced. However, the out-and-out communist is not nearly as dangerous as the radical who poses as a good American but whose heart is crawling with seditious "Red" maggots.

If the Reds take over this country it will not be by revolution. The biggest mistake the communists could make would be to start a revolution and give all real Americans the chance they have been waiting for—to shoot them down. The Reds wouldn't last long that way.

They hope, however, to take over the U. S. by another method—"NOT A REVOLUTION, BUT AN EVOLUTION." Those were the very words of the man who did more than any other man to betray this nation into the hands of the communists.

More dangerous than the out-and-out communist is the politician, (no matter what his label,) who, upon every opportunity, belittles the Red menace in America. When there is an investigation of communists, that traitor-politician ridicules it and refers to it as "hysteria," "a red herring," "red-baiting," "Fascism," et cetera, ad infinitum, ad nauseam.

If the American form of government fails to survive, it will be because of those traitor-politicians who attempt to lull the American public to sleep while the Reds plant dynamite under their beds.

Some of those politicians are such arch-hypocrites that they can go into church pulpits posing as friends of the Church and the same day meet with groups of "Reds." They ALWAYS vote on the side of the "Reds." They vote for mongrelization, regimentation, government meddling and control in every realm. Some of them are members of well-known subversive organizations parading under the banner of "democracy,"—a word that has been overemployed by communists in recent years.
