From that time to this, every U.S. president has had a blind spot in his eyes, a weak spot in his spine and a soft spot in his head for Israel. And the same condition holds true for 80% of the members of the U.S. Congress, be he or she a decadent Democrat or a repugnant Republican.

But for what purpose? The Jewish homeland we committed our support to in 1922 is not the ever-expanding, Zionist empire state of 1982.

For there is no freedom for any but Jews in Israel and that freedom is of such a vague and weak nature as to make a mockery of the word itself.

Thirty four years after the creation of Israel, there is neither a constitution nor a bill of rights for its people. Israel has a supreme court, but that court can be and is overruled by the 120 member Knesset or Parliament, which in turn governs thru the Defense Laws of Israel.

These so-called defense laws consist of 170 articles divided into 15 sections. Under these laws, the government may enter your home or your business and search it without a warrant; your property may be seized or destroyed without any compensation; you may be jailed or imprisoned indefinitely without charge.

These laws also provide for the government to place you under house arrest; restrict you in your travels; deny you entry into or exit from the country; or you may even be deported even though you were born there and lived there all your life. There is even a National Board of Censors to ban and censor books, newspapers, magazines and films. Yet we are told Israel is a democracy!

In matters of religion and marriage, the ancient HALACHIC LAWS of the Orthodox Rabbinate are the supreme law of this unholy land. Under these laws if a woman's husband died, she is required by law to offer herself to her husband's brother, even if the brother is married!

Children of marriages between Jews and gentiles are known as MAMZERIMS (bastards) and they may not marry nor be buried in a cemetery by one of their Jewish parents if that is their wish. Yet we are told Israel is a democracy!

For 30 of its 34 years, Israel has been ruled by a coalition of socialist, communist, and religious political parties. The MAPAI (Socialist Labor) Party has been the dominant force in Israeli politics and the AGUDAT ISRAEL has been the dominant party of religious fanatics.

And with this strange blending of Marxist socialist, and religious fanaticism, has come triple digit inflation (130% at last count); social instability; widespread immorality;

political corruption and war.

The Israeli Kibbutz is a model communist society comprising 50-500 families, but where the rights of the parents are non-existent. The Israeli government is financially supportive of the Kibbutz communities.

In CHILDREN OF THE KIBBUTZ, Professor Milford E. Spiro of the University of Chicago, recorded that children raised in such parentless collective societies, became engrossed in acts of sexual perversion ie Homosexuality, Bestiality, and Incest as early as 3-5 years of age! Yet we are told Israel is a holy land!

Before 1948, there were 475 Arab villages in the land of Palestine, now there are less than 90, the rest having been destroyed by Zionist terrorists. Following the June 1967 Six Day War, between the period of June 11, 1967 to November 15, 1969, 7,500 Arab homes in the Israeli-occupied territories, were bulldozed to the ground. By 1971, the figure had risen to 16,312 homes destroyed, onto which were settled Israelis.

PALESTINIAN VICTIMS OF ZIONISM - NO SURVIVORS

Yet Israel claims all they want to do is live in peace with their Arab neighbors!

On June 8, 1967, the U.S.S. Liberty an American intelligence ship was attacked in international waters at 2 p.m. in the afternoon by Israeli jet fighters and torpedo boats. The attack lasted over 2 hours and resulted in 34 Americans being killed and 171 injured.

Two possible motives for the attack have been put forward: one, that the Liberty had proof from its monitoring of Israeli communication that Israel had started the June 1967 Six Day War and the Israelis tried to sink the ship to prevent that evidence from getting out; the other theory is that Israel attacked the ship with the intention of sinking it, and blaming it on the Arabs so as to commit us to a war against the Arabs from which Israel would benefit.

In any event, Israel attacked an American ship, killed 34 of our countrymen and was allowed to get by with it. Yet we are told Israel is our ally! And so we are taxed to the tune of \$7 million dollars a day to support Israel in its war against its neighbors.

Thus we come to the close of our argument. In that Israel has consistently violated the legal proviso of September 21, 1922 upon which this nation committed its support, the so-called "moral commitment," to Israel has ceased to exist and we are no longer bound by it.

Hence as a nation, we can and we must break any ties to the wild-eyed, murdering thieves who govern Israel. And the very first step in that direction is to work for the election of a congress of loyal Americans who will not be intimidated from supporting the interest of America first, which by definition, excludes the unholy land of Israel.
