

Progressive Education IS Undermining AMERICA

Millions of people have refrained from becoming acquainted or familiar with the Communist technique of infiltration and subjugation yet they are amazed how a country like the Republic of China could be conquered by the Communists without firing a single shot.

In the hope that American parents will become aware and realize that the future welfare of their children is at stake, I secured permission from the Freeman magazine to publish the article entitled, "PROGRESSIVE EDUCATION UNDERMINED CHINA," by a former professor of Canton University, Dr. Kao Chien.

After reading this history of education in China everyone who is familiar with the trend in our educational system will immediately realize that the methods adopted here in America, including Arlington, are identical to those which destroyed education and all freedoms in China.

Progressive Education Undermined CHINA

By DR. KAO CHIEN

How China's new educational policy, adopted in 1922 through the influence of Western-trained intellectuals, helped the Communists take over.
