

IF THE G.O.P. WON'T STOP THE WAR...

Dallas millionaires and multi-national corporations are spending \$4 million to make the Republican Convention safe from bad publicity and to contain a "nice, quiet, little protest."

WE'LL STOP THE G.O.P.!

Television crews and news reporters from around the world will be in Dallas to see how many dissenters are outside convention center to protest against four years of intervention abroad and four years of oppression and social welfare cuts at home.

I WANT TO STOP THE GOP and prove the millionaires are wrong.

THE FREEZE REAGAN/BUSH VISION STATEMENT

"In 1984, Dallas has been chosen as the site for the upcoming G.O.P. convention. We are seeking to provide an opportunity for individuals and affinity groups around the world to engage in creative, non-violent civil disobedience in Dallas. It is time for anti-nuclear, anti-war, anti-draft issues to be addressed DIRECTLY. Labor organizations, students and youth organizations, environment and ecology groups, independent truckers and farmers, women's groups, gays and lesbians, the economically disadvantaged, drug reform organizations and others will be gathering in Dallas to say NO to the threat of global holocaust and death. We gather to say YES to a world where people, animals, plants, and the earth itself is respected and valued. Our solidarity in anger is our power; in our numbers is our strength."

—November 19th, 1983, Dallas

The Role For Direct Action...

Along with exhibits, an International Tribunal on U.S. Imperialism, teach-ins, die-ins and other events, potential actions being considered by Freeze Reagan/Bush for Convention week (and the week before, during the platform hearing) include:

- Bringing in two dump trucks to remove lead-contaminated soil illegally dumped in underdeveloped Northwest Dallas to a spot where the Republicans can see and experience the effects of their industrial-environmental policies.
- Photographs of peace movement people from around the world who can be present only in spirit will be placed to form a carpet at the gates of the Convention Center—so Reagan folk have to 'step over peaceful alternatives.'
- The German Green Party is organizing concurrent European demos and C.D.'s in which millions of people are expected to be involved. Arriving from Europe will be white crosses engraved with the names of people who have died fighting in El Salvador. These crosses will be erected in Dallas graveyards and also at the convention site. This action has been endorsed and will be backed by the German Evangelical Church and Die Grunen.

Freeze Reagan/Bush will be circulating these and other ideas among interested groups, so that their spokespeople can get together and confer on the feedback. We want to see actions in Dallas by all the community activists and direct action coalitions Reagan has been ignoring.
