

DAVID A. WILLIAMS, PRESIDENT

American Family Association

Washington, D.C. 20070

Dear Member of the American Family Association,

I regret to inform you that the United States Senate has just passed one of the top priorities of the homosexual and lesbian lobby here in Washington.

Brace yourself for what I am about to tell you - and was of course not reported in the liberal national news media - will shock you.

Up until last week, alien homosexuals and lesbians were not allowed to enter the United States.

But now with the powerful backing of Senator Ted Kennedy, Senator Alan Cranston and all the other liberals who cater to the homosexual-lesbian lobby, alien homosexuals can now enter America.

That is why it is crucial for you to sign your personal official petition to the Office of Immigration.

Your petition to the Office of Immigration that screens all these alien homosexuals and lesbians is crucial to you and your family's survival.

Your personal petition will hold the Office of Immigration accountable for all crimes, diseases and sexual abuses that occur.

For right now, the homosexual-lesbian community in America has launched an epidemic here at home.

AIDS - Acquired Immune Disease Syndrome is now an epidemic in America. And there is no cure.

The National Public Health Service has called this disease their number one priority.

This disease is transmitted primarily by homosexuals and lesbians and once you get AIDS, death can be only days away.

The alien homosexuals that will soon flood America will bring disease, crime and untold sexual suffering on young children.

So please sign your petition asking the Office of Immigration not to permit alien homosexuals to flood America.

Your personal petition to the Office of Immigration will hold them responsible for all deaths, crimes and sexual abuse by allowing alien homosexuals to enter America.

As a family member and supporter of the American Family Association, I hope I can count on you to stand up to the Kennedys and Cranstons who want to flood America with alien homosexuals and lesbians.
